

2016

LEGISLATIVE VOTE RATINGS

MISSOURI CHAMBER
OF COMMERCE AND INDUSTRY

A vote counts much more than a promise.

An essential part of a political campaign is having candidates tell their constituents what they will do in office. Vows to help Missouri's economy and create jobs for our workers are some of the more common promises – particularly this year, with the economy central in many voters' minds.

Yet, it's not until our elected officials are faced with important votes that we get to see where they truly stand on helping Missouri's economy.

To rate our elected officials, the Missouri Chamber of Commerce and Industry has graded the members of the current General Assembly based on how they voted on the most important issues in 2016 and in their cumulative years in office. These issues included civil justice, economic development, education and workforce development, environment, taxation and budget, labor, and unemployment insurance.

We've listed the grades for all the members of the General Assembly on the following pages. For greater detail, visit our complete vote record at: www.mochamber.com.

Missouri House of Representatives

Party	Name	District	2016 Rating	Cumulative Career Rating in the House
D	Adams, Joe	86	47%	36%
